‖‖‖ HACKITAL

Dear Potential Sponsor,

The Hackital team cordially invites you to attend our second annual hackathon in Washington, DC. Hackital's mission is to attract top talent from the Metropolitan area and connect them to innovators from across the nation. Opening its doors this year to over 500 developers, designers, and creative thinkers, Hackital is positioned to become one of DC's premier student-organized fall hackathons.

Beginning on November 11th -12th, 2017, attendees will be given a 36-hour window to develop a variety of innovative products that push the limits of everything from mobile applications to virtual reality, and we would like you to be a part of it. Sponsoring Hackital gives you the opportunity to talk to, collaborate with, and recruit industrious young professionals in the tech community. Sponsors are given the opportunity to:

★ Provide mentors to establish relationships with attendees
★ Demo their APIs for attendee project integration
★ Offer a branded prize to encourage use of their technology
★ Create valuable recruiting connections

The next page includes details on how you can contribute to the success of Hackital 2017. If you have any further questions, please reach out to thehackital@gmail.com.

Thank you,

The Hackital Team
